LAMPION

AMBIANCE LIGHTING | LAMPION

Lampion is a range of cylindrical light fixtures in the form of an openwork stainless steel cage suspended from an aluminum electrical housing and protected by IK08 tempered glass. The premium version, the Lampion Glow, is enriched with a diffuse white backlit cylindrical polyethylene bowl with optional DMX control. The Lampion range has an Zhaga-compatibles 8 to 48 LED IP66 optical unit and integrated driver which allows, via a wide range of color temperatures and photometries, to precisely meet the lighting needs of the project while ensuring compliance with the regulations against light pollution. These Class I and II luminaires create ambiance through the play of light produced by the optional customizable cut-out patterns.

*Regulation specific to France: Decree of 27/12/2018 relating to the prevention, reduction and limitation of light nuisance: product configuration to be defined according to the nature of the project.

LUMINAIRE'S SPECIFICATIONS

Luminaire's body & Electrical Housing

Weight	9.4 kg
Aerodynamic coefficient (CxS)	0.106 m ² *
Materials	Electrical housing: Aluminium Cage: Stainless steel

Optical unit & control gear

1 to 3 COB - From 750 to 4500 lm (see attached Lampion mini datasheet for details on power, light intensities and available photometries). Integrated smart driver (control, automatic adjustment, CLO, graduation via voltage variation or DALI). ULR: 0% (ULR: Upward Light Ratio).

Materials	Tempered glass
Electric class	I and II
Protection index	IP66
Shock resistance	IK08

Operating temperature: -40°C to +35°C (up to +50° under conditions).

11/10/2023 - All informations are subject to change without notice.

Dimensions (mm)

Customization

Inlay of a customization element (logo, coat of arms of a city, decorative pattern) within the cage after a feasibility study by our technical service.

* SCx calculated on the basis of our standard cut. Coefficient may vary depending on the design of the cutout, a technical study must be carried out.

Two-tone variation (different shades between the cage and the electrical housing).

Options

- Zhaga or Nema socket on top of the luminaire to connect OLC or photocell.

Ecodesign

Luminaire designed in compliance with the environmental criteria of energy efficiency, recyclability and interoperability.

Associate member of the Zhaga consortium, Ragni integrates electronic elements in this product that comply with the Zhaga standard, which ensures its scalability and interoperability.

Member of the Global Compact since 2018, Ragni is committed to working towards the 17 Sustainable Development Goals (SDG 11, 12, 13, 15).

Luminaire guaranteed free of hazardous substances.

Luminaire eligible for the energy savings certificate.

Luminaire compliant with the decree of 27/12/2018 on the prevention, reduction and limitation of light pollution: product configuration to be defined according to the nature of the project.

Applicable standards

IEC/EN 60598-1 / IEC/EN 60598-2-3 / NF EN 60529 / NF EN 62262 / IEC/EN 55015 / IEC/EN 61547 / IEC/EN 61000-3.2 / IEC/EN 61000-3.3 / IEC/EN 62493 / IEC/EN 62031 / IEC/EN 62471 / IEC/EN 61347-1 / IEC/EN 61347-2-13 / NF EN 13201-3 / NF EN 13201-4 / EN 13032-1+A1 & EN 13032-4 / LM79 / NF EN 12981
