

Certificate of constancy of performance for a range of Steel lighting columns according to EN 40-5:2002

Delivered in compliance with Regulation 305/2011/EU of the European Parliament and of the Council of 9 March 2011. This certificate applies to the construction product:

Metallic lighting column: Steel straight columns and columns with brackets

Placed on the market by: **RAGNI SAS**
Chemin du Val Fleuri – Vallon des Vaux – BP 2
06800 CAGNES SUR MER

And produced in the factory: **CAGNES SUR MER (06800)**

The product is submitted by the manufacturer to a factory production control. The initial type-testing for the relevant characteristics of the product, the initial inspection of the factory and of the factory production control have been performed under the responsibility of the notified body CTICM. CTICM also performs the continuous surveillance, assessment and approval of the factory production control.

This certificate attests that all provisions concerning the assessment and verification of constancy of performance of the **Steel straight columns and columns with brackets** and the performances described in the Annex ZA of the standard **EN 40-5: 2002** were applied and that the product fulfils all the prescribed requirements.

This certificate was first issued on the **January 6th, 2006** and remains valid as long as the conditions laid down in the harmonized technical specification in reference or the manufacturing conditions or the FPC itself are not modified, unless suspended or withdrawn by the notified factory production control certification body..

Reference of the range: the lists of product references for the range are the documents referenced n° **5BET053-13** kept up to date by the producer.
